Appl. N°09/744,994 (PCT/IB00/00843) Conf. N°4671. Fax: 1-703-305-32-30

Commissioner of Patent and Trademarks, USPTO
Washington D.C.

Dr. Y. Zagjansky, Entralde, 22 rue Ste

Marthe, 75010 Paris *App. N°09/744,994 Conf. N°4671.*

Paris, 13th May 2004

Sir, USPTO must send by asked PAID registered letters. However, in proving again and again (see last e-mails to Michael Neas and David.Vanore@uspto.gov of 04/17 and 02/12/04 and PTO Fax of 02/12/04), I state that I do not have any news. I hope the proven intentional falsifications in EPO (ISA and IPEA of this Application) à la Palermo (consequently European Governments are BRIGANDS, CRIMINALS) will help to follow the law to Governmental USPTO too, unfortunately looked like very coordinated in crimes: BY ANYWAY. But as result without doubt, the best EPO (ISA and IPEA) MUST deliver very good Patent for the same Application, moreover with very possible fines for milliards for intentional PENAL crimes! (Brigands are taken for hands). Sincerely with International evident Justice, Dear Participants, without hiding behind the "post losses", Dr. Y. Zagjansky Below there is the concerning fragment of my letter of Vice-President of EPO (05/03/04): *Y. Zagjansky*
Mr. Kyriakides (personally), Vice-President of European Patent Office, Paris, 03th May 2004.....

SUPPLEMENT:

Chain of Usurping Crimes of Governmental Office against the more and more victorious inventor goes to its APOTHEOSIS Historic with the most atrocious crimes against Humanity! ... By logically noncontrolled fantastical chance (in Physics, this time), Main very experienced PCT EPO Examiner Dr. E. Capostango makes IDEAL Search for my Basic Application PCT/IB00/00843 (60 pages of XXII century Physics) (wherein the present PCT/IB03/03315 is only its successful continuation), that certainly led to certain Patents. But justly this elementary rest became the incontestable revelation of real nature of Totalitarian European Governments of Crime à la Palermo: to close up this breach BY ANYWAY!

a). CLEAR EPO PALERMO WITH BASIC APPLICATION (PCT/IB00/00843). For this, Examiners try directly even to falsify (as at usurping dictature) real presence of 2 unpertinent ("A") published references in Search (Unbelievable!), showing de facto (written) moreover their much lower level than Inventor for New Science for millions of years (PCT/IB03/03315-->FR-03-14703). Consequently, they falsified known sense of Rule 67.1(i) PCT [and Art. 52 EPC], wherein scientific theories are searched as whole (as in undenied, AT ALL, the best! main! Dr. Capostango Search, that has to be obligatory concretely done by Examiners) and examined (directly PCT Guidelines §9.05). And later, already after National Examination, I even presented large list of outstanding examples of patenting de facto of even vulgar adversed "scientific theories and mathematical methods". But there are thousands of patents with also mathematical methods (wherein patentable formula could be even in claim ["as whole"]- Rule 11.10 PCT) which are at the same line of Art. 52 (EPC). Logically such gibberish became clearly unsupportable. So logically EPO want again! criminally to falsify something less formal in returning again to new Examination by criminal falsifications with criminal "anyway" considering a priori all their officers as co-criminals (as all of governments too? Or rather "governments" of Big Brother consequently à la Palermo for "Court" already of The Hague). By such "Palermo" way, certainly, EPO goes to direct Organizing falsifications (14.05.03.), stating in parallel (logically only for above) the absence of Priority Documents in 4 Departments (4 copies!!) of 2 Offices (EPO and IB of WIPO!) like in knowing in forward that all Officers are obliged to confirm the SURE falsification à la Palermo.

Incredible criminal revelation for Criminal logically Governments but there is the fact of presence of this copy in IB and in IPEA! Moreover, there is, also needed, certain OBVIOUS falsification of sense (again and again!): International Preliminary Examination is done by similar PCT Guidelines (like with equal Interchangeable Searches!, made by PCT or EPO Guidelines too) and the same (in sense of being complete, see EPO Guidelines) as Substantive EPO Examination in this unchanged case.

SUPPLEMENT 2:

There are the simple examples of patented de facto by EPO "scientific theories and mathematical methods" with their application according to Art. 52(2a) and (3): 1. EP702866 "Signaling packet for communication system with modulated reference according to a time-base law" (delivered). 2. EP467239 "An encryption system based on Chaos theory" (delivered). 3. "Five colour theory" (delivered). 4. EP784267 "An efficient data-driven theory (claimed matrices and vectors with equations) (intention to deliver). 5. EP493072 "A method of generating partial differential equations for stimulation method, and a method of generating stimulation programmes" (delivered). 6. EP314809 "Vector processor for processing recurrent equations" (delivered). 7. EP421092 "Method and apparatus for performing mathematical functions using polynomial approximation and a rectangular aspect ratio multiplier" (delivered). 8.
